1800 Michael Faraday Dr, Suite 104  
Reston, VA 20190  
P: 703 537 8157  
F: 571 464 0586

---

## Retina Imaging Policy

By choosing The Eye Institute of Reston, you have entrusted us, as your physician, to care for your eyes: We take this responsibility very seriously.

We pride ourselves on providing our patients with the best possible standard of care. Because of this, we now perform the optomap® Retinal Exam on all of our patients. It also facilitates the early diagnosis of many health conditions including high blood pressure, high cholesterol, diabetes, macular degeneration, and glaucoma. Dr. Bathija strongly believes that the optomap Retinal Exam is an essential part of your comprehensive eye exam and prescribes it for all patients once per year.

It is our belief that an eye exam without this element is incomplete.

Today, we will perform this fast, easy and comfortable screening test as part of your annual comprehensive examination. The \$39 co-pay for this procedure is not covered by insurance and will be in-addition to your examination fee or vision plan co-pay.

**By offering the optomap®, the doctor may not need to dilate your eyes.**

Thank you for allowing us to monitor the health of your eyes: Remember, they are the only two you have, and that is why we take your eye care seriously.
